

## EFFECTS OF MINOR VARIATIONS IN A COSMETIC PRODUCT FORMULATION ON THE EVALUATION OF ANTI-WRINKLE EFFICACY

<b><u>CUSTOMER</u></b>	<b>LABORATOIRE DR PAUL ET KARIN HERZOG SA Route de Tailleped, 1 1095 Lutry - SWITZERLAND</b>
<b><u>PROTOCOL STUDY CODE</u></b>	<b>REL/0866/2014/CONS/ELB</b>
<b><u>SAMPLES</u></b>	<b>-VITA A KOMBI 1 – Ref. E1C 100 ml Batch: 0110715 (TESTED) -VITA A KOMBI WITH AHA (TO VALIDATE)</b>
<b><u>REPORT DATE</u></b>	<b>05/06/2014</b>

Here below are reported the INCI compositions of the two products (tested product and product to be validated):

**Vita-A-Kombi 1 (TESTED)**

Aqua, Petrolatum, Glyceryl stearate, Paraffinum liquidum, Tocopheryl acetate, Polysorbate 80, Stearyl alcohol, Cetyl alcohol, **1% Hydrogen peroxide**, Cetearyl ethylhexanoate, Isopropyl myristate, Salicylic acid, Fructose, Retinol, Parfum.

**Vita-A-Kombi with AHA (TO BE VALIDATED)**

Aqua, Petrolatum, Glyceryl stearate, Paraffinum liquidum, Tocopheryl acetate, **1% Hydrogen peroxide**, Polysorbate 80, Stearyl alcohol, Cetyl alcohol, Cetearyl ethylhexanoate, Isopropyl myristate, Citric acid\*, Salicylic acid, Fructose, Citrus aurantium dulcis peel oil\*, Retinol, Parfum.

\*Added components in Vita-A-Kombi with AHA.

Taking into account that the variations in the INCI composition of **Vita-A-Kombi with AHA** respect to the INCI composition of **Vita-A-Kombi 1** are the addition of *Citric acid* and *Citrus aurantium dulcis peel oil* it can be reasonably conclude that the product

**Vita-A-Kombi with AHA**

having a percentage of Hydrogen peroxide (anti-wrinkle active ingredient) equal to **Vita-A-Kombi 1** it will have at least the same anti-wrinkle efficacy of the tested product **Vita-A-Kombi 1**.

Therefore, we can assume that the results experimentally obtained during the evaluation of the anti-wrinkle efficacy for the product **Vita-A-Kombi 1** in the study N° **KH041/14-01 (REL/0477/2014/CLI/SAB)** “**EVALUATION OF THE ANTI-WRINKLE EFFICACY OF A COSMETIC PRODUCT ON 20 VOLUNTEERS THROUGH PROFILOMETRIC ANALISYS (LONG TERM TEST)**” can be considered as valid also for the product **Vita-A-Kombi with AHA**.

In conclusion for the product **Vita-A-Kombi with AHA** it can be considered valid the results obtained from the study **KH041/14-01 (REL/0477/2014/CLI/SAB)** carried out by Abich laboratories on the product **Vita-A-Kombi 1**.
